DETAILED ACTION

Drawings

1. Figures 1-4 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawing sheets are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Specification

2. The disclosure is objected to because of the following informalities:

- Page 2, line 20, replace "Fig. 1" with --Fig. 5--.

Appropriate correction is required.

Claim Objections

3. Claims 4 and 11 are objected to because of the following informalities:

- Claim 4, line 10, replace "the" with --a--.
- Claim 11, line 10, after "intermediate" insert --transfer--

Appropriate correction is required.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 1-10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

- Claim 1, line 13, "the carriers" is unclear; i.e., are they the same as "the image holders" which are previously cited in the claim?
- Claims 2-10 are also rejected for the same reason because of their dependency on claim 1.

Allowable Subject Matter

6. Claims 1 and 11 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph and/or objection(s), set forth in this Office action.

7. Claims 2-10 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph and/or objection(s), set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

8. The following is a statement of reasons for the indication of allowable subject matter:

None of the prior art of record teaches or suggests an image forming apparatus having each of the intermediate transfer electrodes located on a belt transfer member surface away from a point at which a corresponding image holder contacts the belt.

Art Unit: 2852

Prior Art

9. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure:

- Mizoguchi et al. ['166] disclose a color image forming apparatus that minimizes contact between transfer belt and photosensitive drum.
